Dear madam, sir,

Being a specialist in handcleaning and handcare products, Dreumex has given the REACH requirements a high priority. We will take all required steps to comply with this regulation.

The ECHA has issued a candidate list of substances of high concern (SVHC). Dreumex can confirm that its products do not contain any of the products that are on the candidate list of SVHC (according to version – d.d. 15-01-2018).

Dreumex will constantly monitor the quality and safety of its raw materials and reassures the high quality standard of its products.

With kind regards

Dreumex B.V.

Peter Maessen
Manager R&D/QC
